# Analysis of Bail and Remand Requests & "§ B1 cases"

**Arraigned by DANY between 2018 and 2021 and Q1 2022**

## Executive Summary

This report was prepared by the Data Analytics and Research Unit with the following goals:

- To understand historical trends in bail and remand requests at arraignment, as well as bail and remand requests at arraignment impacted by section § B1 of D.A. Bragg's Day 1 Memo (hereafter "§ B1 Cases").
- To assess the impact of section § B1 of D.A. Bragg's Day 1 Memo on bail and remand requests at arraignment in Q1 2022 compared to Q1 2021.
- To assess compliance with D.A. Bragg's Day 1 Memo in Q1 2022 on bail and remand requests that require submitting a bail justification form.

## Key Takeaways

### Section I: Overview

- The number of cases arraigned decreased 43% from 2018 to 2021 (from 51,732 cases to 29,736 cases). This decrease is largely driven by the overall decrease in arrests screened.
- The percentage of cases where bail or remand was requested at arraignment decreased from 28% in 2018 to 15% in 2021 largely driven by bail reform at the state level.
- In 2018, 77% of felony cases had bail or remand requested at arraignment, and by 2021, 48% of felony cases had bail or remand requested at arraignment. Similarly, the percentage of misdemeanor cases that had bail or remand requested has decreased from 18% in 2018 to only 5% in 2021.
- The number of cases arraigned increased from 5,932 cases in Q1 2021 to 7,833 cases in Q1 2022—a 32% increase. In Q1 2021, 20% of cases had bail or remand requested at arraignment, and in Q1 2022 11% of cases had bail or remand requested at arraignment.

### Section II: Changing Bail Eligibility Between 2018 and 2022

- During our analysis Pre-Bail Reform period (Jan 1 2018 – Dec 31 2019), 30% of cases arraigned had bail or remand requested (28,058 out of 93,528 cases).
    - Of those 28,058 cases that had bail or remand requested, 52% were misdemeanors, 48% were felonies.
- During the Post-Bail Reform, Pre-Amendment period (Jan 1 2020 – Jul 1 2020), 13.4% of cases arraigned had bail or remand requested (1,554 out of 11,583 cases), of which 93% or 1,450 cases were bail eligible cases by charge.
    - Of those 1,450 bail eligible cases by charge that had bail or remand requested, 17% were misdemeanors and 83% were felonies.
- During the Post-Bail Reform, Post-Amendment period (Jul 1 2020 – Dec 31 2021), 17.8% of cases arraigned had bail or remand requested (6,815 out of 38,831 cases), of which 75% or 5,093 were bail eligible cases by charge.
    - Of those 5,093 bail eligible cases by charge that had bail or remand requested, 16% were misdemeanors and 84% were felonies.
    - Of those 1,732 cases that did not include a bail eligible charge but bail or remand was requested, 40% were misdemeanors, 40% were NVFs and 20% were VFOs.

- In Q1 2022, under new office policy as set out in the Day 1 Memo, 11% of cases arraigned had bail or remand requested (839 out of 7,833 cases), of which 42% or 351 cases were § B1 cases.
    - Of those 351 § B1 cases that had bail or remand requested, 25% were misdemeanors and 75% were felonies.
    - Of those 488 non-§ B1 cases that bad bail or remand requested, 16% were misdemeanors and 84% were felonies. Of these cases, 394 cases had a bail justification form submitted (81%), with an approval rate of 89%.

## Section III: Comparison in Bail and Remand Requests Between Q1 2021 & Q1 2022: a Deeper Dive

- In both Q1 2021 and Q1 2022, about 90% of all arraignments are non-§ B1 cases by charge.
- In Q1 2021, 20% of cases arraigned had bail or remand requested (1,207 out of 5,932 cases).
    - Of those 1,207 cases that had bail or remand requested, 35% or 423 cases were § B1 cases.
    - Of those 1,207 cases that had bail or remand requested, 66% had bail set or remand.
- In Q1 2022, 11% of cases arraigned had bail or remand requested (839 out of 7,833 cases).
    - Of those 839 cases that had bail or remand requested, 70% had bail set or remand.
    - Of those 839 cases that had bail or remand requested, 42% or 351 were § B1 cases.
- In Q1 2021, 64% of non-§ B1 cases where bail or remand was requested at arraignment had bail set or remand. In Q1 2022, 71% of non-§ B1 cases where bail or remand was requested at arraignment had bail set or remand.

## I. Overview

*This section describes overall arraignments and bail or remand request trends for all cases from 2018-2021 and for Q1 of 2021 and 2022. All extradition cases arraigned at DANY have been removed from the analysis. All bail requests include only those cases where the bail amount requested was > $1 (unless specified otherwise).*

**Year-over-Year Historical Trends in Cases arraigned and bail or remand requested, 2018-2021**

1. **How has the number of cases and the number and proportion of felony/misdemeanor/violation cases arraigned changed from 2018-2021?**

From 2018 to 2021 the total number of cases arraigned decreased ~43% from 51, 732 cases a year to 29, 736 cases a year.

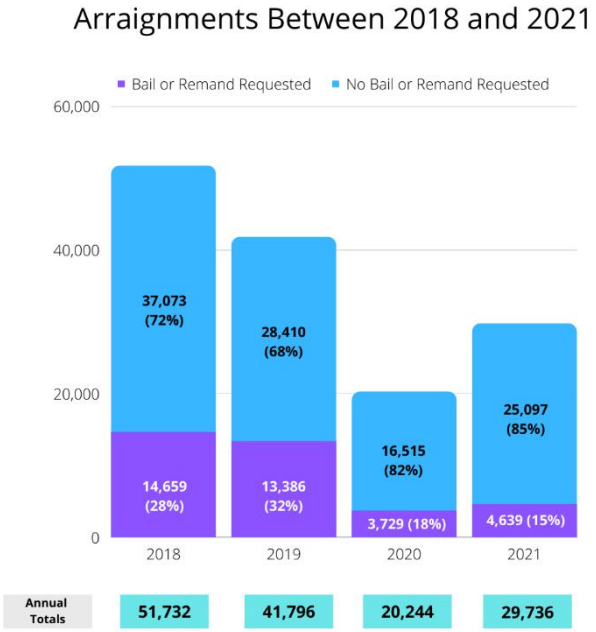
- Felony arraignments decreased 28%
    - Non-violent felony (NVF) arraignments decreased 51%
    - Violent felony (VFO) arraignments increased 15%
- Misdemeanor arraignments decreased 45%
- Violation/infraction arraignments decreased 86%

There was a 47% increase in arraignments from 2020 to 2021 from 20,244 cases to 29, 736 cases.

The office arraigned a more serious mix of cases in 2021 than in 2018:

- Of all cases arraigned in 2018, 18% were felonies (12% NVF and 6% VFO), 80% were misdemeanors and the remaining 2% were violations/infractions.
- In 2021, of all the cases arraigned, 22.5% were felonies (10% NVF and 12.5% VFO), 77% were misdemeanors and the remaining <1% were violations/infractions.

*Figure 1*

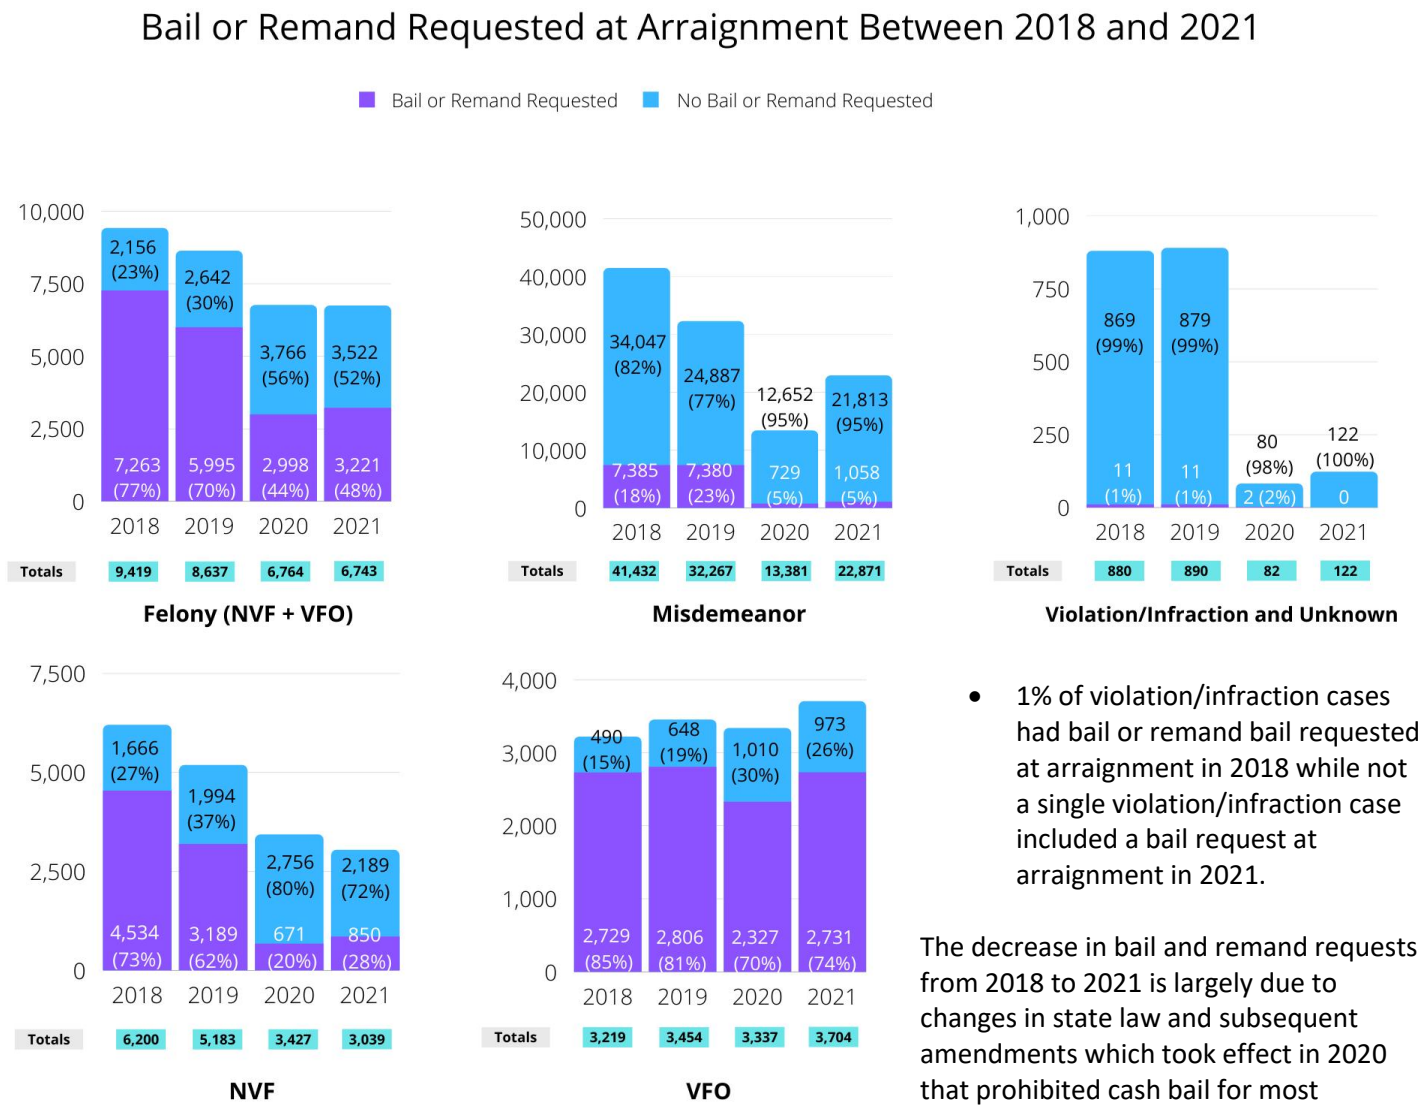


2. **How has the number and proportion of cases where bail or remand was requested at arraignment changed from 2018-2021?**

In 2018, 28% of all cases had bail or remand requested at arraignment (14,659 out of 51,732 cases) while in 2021 only 15% of all cases had bail or remand requested at arraignment (4,639 out of 29,736 cases). This also means bail was requested at arraignment in 32% fewer cases.

- 77% of felony cases had bail or remand requested at arraignment in 2018 while only 48% of felony cases had bail or remand requested at arraignment in 2021
    - 85% of VFO cases had bail or remand requested arraignment in 2018 while only 74% of VFO cases had bail or remand requested at arraignment in 2021
    - 73% of NVF cases had bail or remand requested at arraignment in 2018 while only 28% of NVF cases had bail or remand requested at arraignment in 2021
- 18% of misdemeanor cases had bail or remand requested arraignment in 2018 while only 5% of misdemeanor cases had bail or remand requested at arraignment in 2021.

*Figure 2*



- 1% of violation/infraction cases had bail or remand bail requested at arraignment in 2018 while not a single violation/infraction case included a bail request at arraignment in 2021.

The decrease in bail and remand requests from 2018 to 2021 is largely due to changes in state law and subsequent amendments which took effect in 2020 that prohibited cash bail for most misdemeanors and non-violent felonies.[1]

**Comparing cases arraigned and bail or remand requested between Q1 2021 and Q1 2022**

1. **How has the number of cases arraigned changed between Q1 2021 and Q1 2022?**
   - The number of cases arraigned increased 32% in Q1 2022 from Q1 2021 (5,932 cases to 7,833 cases).

2. **How has the proportion of cases where bail or remand was requested at arraignment changed from Q1 2021 to Q1 2022?**

The percent of arraignments where bail or remand was requested decreased in the first quarter of 2022 compared to the same time in 2021

- In Q1 of 2021, 20% of all cases arraigned involved a request for bail or remand. In Q1 2022, 11% of all cases arraigned involved a request for bail or remand.
- In Q1 of 2021, 6% of misdemeanor arraignments had bail or remand requested, 32% of NVF arraignments had bail or remand requested and 73% of VFO arraignments had bail or remand requested.
- In Q1 of 2022, 3% of misdemeanor arraignments had bail or remand requested, 23% of NVF arraignments had bail or remand requested, and 59% of VFO arraignments had bail or remand requested.

[1] https://legislation.nysenate.gov/pdf/bills/2019/a9506b

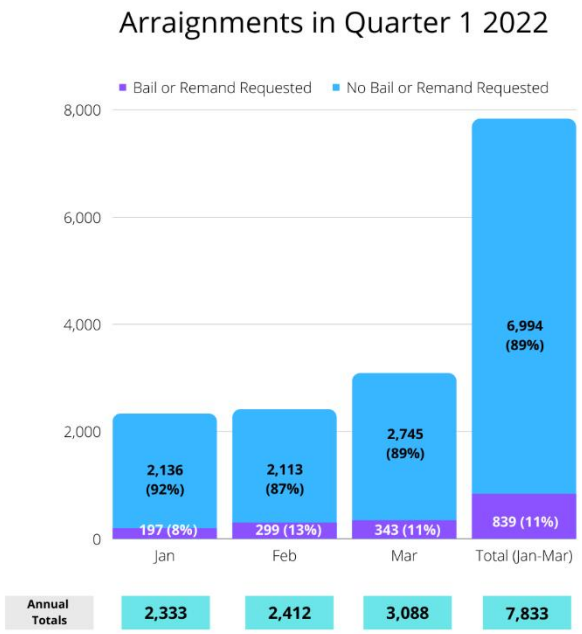
3. **How has proportion of cases where bail or remand was requested at arraignment changed by month in the first quarter of 2022?**

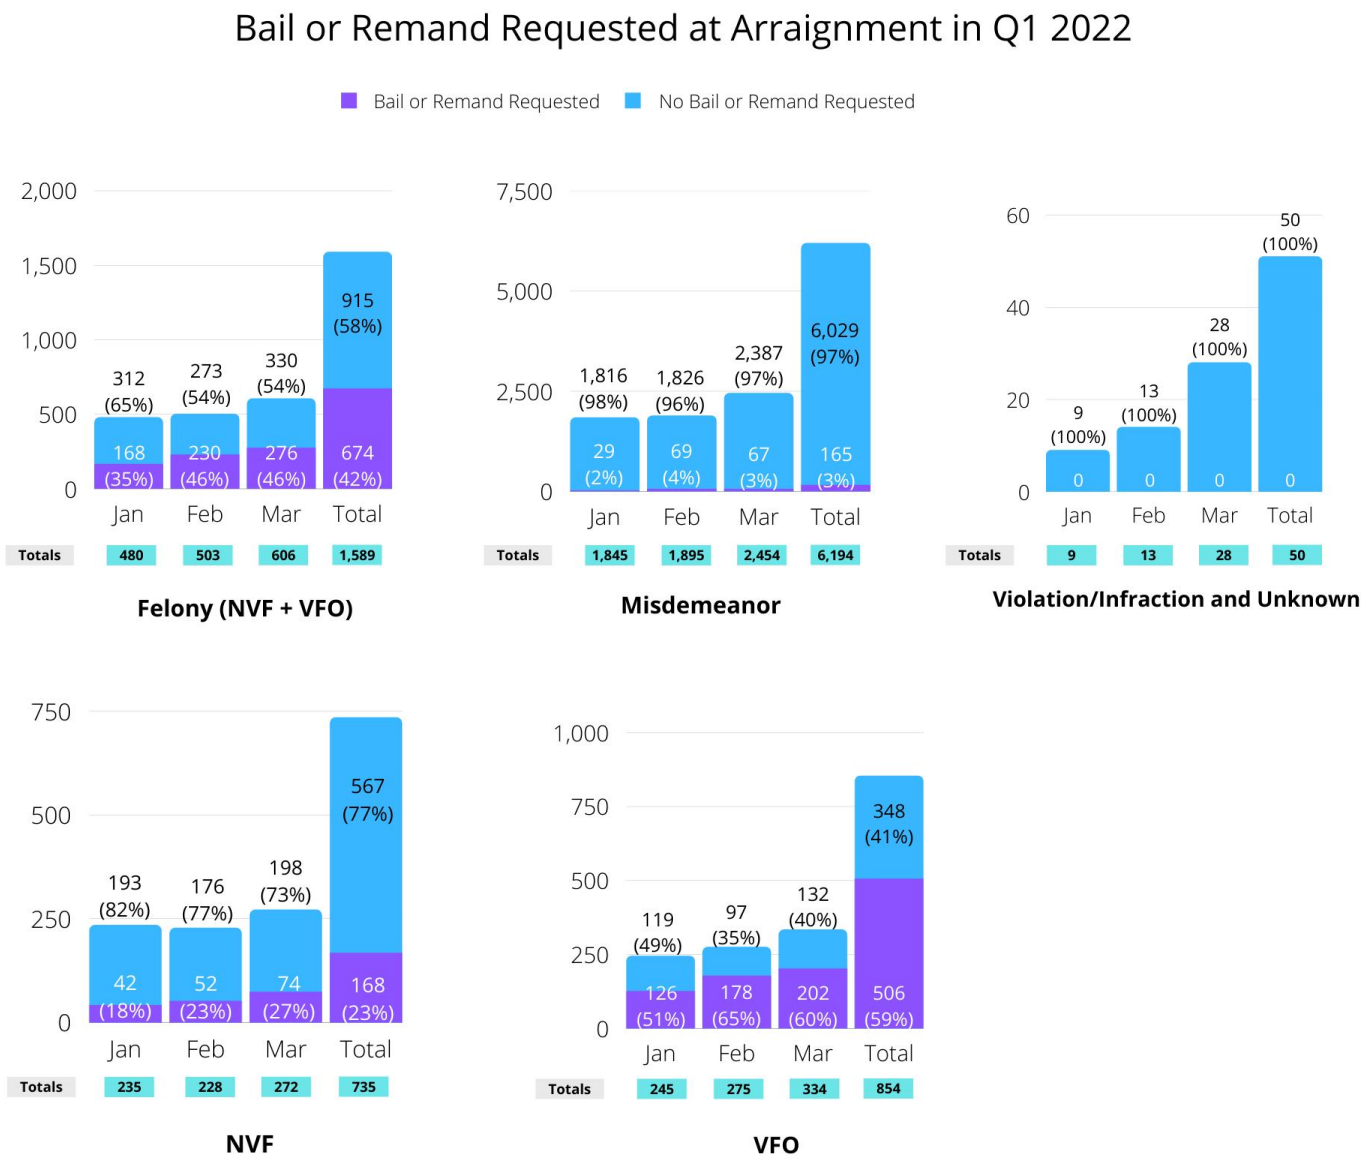
Bail or remand requests at arraignment were lowest in January of 2022.

- 8% of all arraignments in January 2022 had bail or remand requested.
- 13% of all arraignments in February 2022 had bail or remand requested
- 11% of all arraignments in March had bail or remand requested.

Note that bail was requested at 13% of all arraignments in Q4 of 2021, just before DA Bragg took office.

*Figure 3*





## II. Changing Bail Eligibility Between 2018 and 2022

*This section analyses historical and more recent trends in requests for bail or remand by changes in policy. This will help us understand the Day 1 policy in the context of larger changes in bail policy at the state level.*

On April 2, 2019, New York State became the latest to overhaul its bail system, passing major reform eliminating cash bail and pretrial detention for nearly all misdemeanors and nonviolent felony cases. This policy went into effect on January 1, 2020.

**Pre-Bail Reform (January 1 2018-December 31 2019):**
During this period, there was no restriction on when bail could be requested at arraignment.

1. **In what proportion of cases pre-bail reform was bail or remand requested at arraignment?**

There were a total of 93,528 cases arraigned during this period, 30% had bail or remand requested (28,058 cases).

- Of those 28,058 cases where bail or remand was requested, 52% were misdemeanors, 28% were NVFs and 20% were VFOs.

**Post-Bail Reform, Pre-Amendment (January 1 2020-July 1 2020):**
Bail reform went into effect and cases with charges covered by the law would be considered bail eligible by charge. ADAs could request bail or remand only on those cases with bail eligible charges and some small number of additional cases.[2]

1. **In what proportion of cases during this period was bail or remand requested at arraignment?**
There were a total of 11,583 cases arraigned during this time period of which bail or remand was requested at arraignment in 13.4% or 1,554 cases.

- Of the 1,554 cases where bail or remand was requested, 1,450 cases had a bail eligible charge (93%)
- Of those 1,450 cases that included a bail eligible charge where bail or remand was requested, 17% were misdemeanors, 13% were NVFs, and 70% were VFOs.
- The remaining 104 cases where bail or remand was requested (7% of all bail requests, 1% of all arraignments) did not have a bail eligible charge at arraignment

2. **What proportion of arraigned cases included a bail eligible charge and in what proportion of those cases was bail or remand requested at arraignment?**

- Of the 11,583 cases arraigned, 17% were bail eligible by charge (1,962 cases).
- Of those 1,962 cases that included a bail eligible charge, 74% had bail or remand requested (1,450 cases).

**Post-Bail Reform, Post-Amendment (July 1 2020-December 31 2021):**
As of July 2 2020, around two dozen new charges were made bail-eligible, most of which were non-violent felonies. The amendment also created new categories of eligible defendants, such as those with an additional case pending involving "harm to an identifiable person or property" if the current case also involved the same conditions. For this analysis, we do not calculate the impact of the new categories[3], and our analysis is solely based on the Office's screening charges. In cases where bail or remand was requested that included only non-bail eligible charges we assume that the request was made due to a circumstance such as harm/harm.

1. **In what proportion of cases arraigned during this period was bail or remand requested at arraignment?**
There were a total of 38,381 cases arraigned during this period of which bail or remand was requested at arraignment in 17.8% (6,815) of cases.

- Of the 6,815 cases where bail or remand was requested at arraignment, 75% or 5,093 cases included a bail eligible charge
    - Of those 5,093 cases where bail or remand was requested that included a bail eligible charge, 16% were misdemeanors, 12% were NVFs and 72% were VFOs.
- The remaining 1,732 cases or 25% of all bail or remand requests did not include a charge which made the case eligible for bail
    - Of these 1, 732 cases, 40% were misdemeanors, 40% were NVFs and 20% were VFOs.
    - The top 5 top charges of these cases at arraignment were:

Table 1

| Rank | Charge | Number of Cases |
|---|---|---|
| 1 | PL 120.00(1) - Assault in the Third Degree | 363 |
| 2 | PL 140.25(2) - Burglary in the Second Degree | 318 |
| 3 | PL 140.20 - Burglary in the Third Degree | 208 |

[2] There are a number of legal reasons bail could be requested during this period absent a bail eligible charge at arraignment. Possible reasons include: defendant persistently failed to appear, defendant violated an order of protection, defendant intimidated a victim or witness or defendant committed a felony but had an open felony case.

[3] While it would be possible to identify individuals with an open case at arraignment, it would be very difficult with our current data setup to identify defendants with open cases involving 'harm to an identifiable person or property' as this is not something tracked in our data.

| | | |
|---|---|---|
| 4 | PL 121.11(a) - Criminal Obstruction of Breathing or Blood Circulation | 80 |
| 5 | PL 160.05 - Robbery in the Third Degree | 73 |

2. **What proportion of cases included a bail eligible charge and in what proportion of those cases was bail or remand requested at arraignment?**

- Of the 38,412 cases arraigned, 18% included a bail eligible charge (7,001 cases).
- Of those 7,001 cases with a bail eligible charge, 73% had bail or remand requested (5,093 cases).

**New Administration (2022 Quarter 1):**
In addition to NY State law on bail reform, section B1 of the Day 1 Memo sets a presumption of pretrial non-incarceration except in specific circumstances. Circumstances in which an ADA is permitted to request bail or, where legally permissible, remand without the permission of their supervisor include "charges of homicide or the death of a victim, a class B violent felony in which a deadly weapon or dangerous instrument causes serious physical injury, sex offenses in Article 130 of the Penal Law, domestic violence felonies or charges of PL § 215.50, public corruption, rackets, or major economic crimes, including any attempt to commit any such offense under Article 110 of the Penal Law. For any charge of attempt to cause serious physical injury with a dangerous instrument, ADAs must obtain the approval of an ECAB supervisor to seek pretrial detention."

- For the purposes of the foregoing analyses we have considered the following **"§ B1 cases":**
    - "Homicide or death of victim" to include all PL 125 charges
    - "A class B violent felony in which a deadly weapon or dangerous instrument causes serious physical injury" to include Robbery 1 Subsection 1 (PL 160.15(1)) and Assault 1(PL 120.10)
    - "sex offenses in Article 130 of the Penal Law" to include all charges as described
    - "domestic violence felonies" (DANY has a case flagger system, any case that is flagged with "Domestic Violence" will be considered as a domestic violence case).
    - "charges of PL § 215.50" to include all cases with a charge as described
    - "public corruption, rackets, or major economic crimes" to include any case with a charge of both Grand Larceny (PL 155.30, 155.35, 155.40, 155.42 or 155.43) and Conspiracy (PL 105 all subsections)
    - Any attempt at the above charges
    - For the purposes of this memo, as of March 1 2022, Criminal Possession of a Weapon in the Second Degree (PL 265.03, all subsections) is also considered a § B1 charge
- All cases which do not include any of the above charges are considered non-§B1 cases.

1. **In what proportion of cases arraigned in Quarter 1 of 2022 was bail or remand requested at arraignment?**

There were a total of 7,833 cases arraigned in Quarter 1 2022, of these cases 839 had bail or remand requested (11% of all arraignments)

- 42% of all bail or remand requests (351 cases) were for §B1 cases
    - Of those 351 §B1 cases where bail or remand was requested, 25% were misdemeanors, 20% were NVFs and 55% were VFOs.
- The remaining 58% of all bail or remand requests (488 cases) were for non-§B1 cases
    - Of the 488 non-§B1 cases where bail or remand was requested, 16% were misdemeanors, 20% were NVFs and 64% were VFOs.

2. **What proportion of cases were §B1 cases and in what proportion of those cases was bail or remand requested at arraignment?**

- Of the 7, 833 total arraignments, 10% were §B1 cases (764 cases).
- Of those 764 §B1 cases, 46% had bail or remand requested (351 cases).

3. **What proportion of cases were non-§B1 cases and in what proportion of those cases was bail or remand requested at arraignment?**

- The remaining 90% of arraignments were non-§B1 cases (7,069 cases)
- Of the 7,069 non-§B1 cases, 7% had bail or remand requested (488 cases)

4. **In what proportion of non-§B1 cases was a bail justification form submitted? In what proportion of non-§B1 cases was a bail justification form approved? What were the charges on cases where a form was submitted, approved or not submitted?**

- Of these 488 non-§ B1 cases, 394 had a bail justification form submitted at ECAB (81%)
- 349 of the bail justification forms were approved—72% of all cases that required a bail justification form, 89% of all bail justification forms submitted.
- The top 5 top charges of those cases where a bail justification form was submitted and approved are:

| Table 2<br>Screening Top Charge | Count | Percent |
|---|---|---|
| PL 140.20 – Burglary in the Third Degree | 32 | 9.2% |
| PL 160.15(3) – Robbery in the First Degree | 31 | 8.9% |
| PL 120.00(1)—Assault in the Third Degree | 28 | 8.0% |
| PL 160.10(2)(a)—Robbery in the Second Degree | 25 | 7.2% |
| PL 120.05(2)—Assault in the Second Degree | 22 | 6.3% |

- 45 non-§ B1 cases had a bail justification form submitted but the form was neither approved nor denied—9% of all cases that required a bail justification form, 11% of all bail justification forms submitted.
- No forms submitted were denied.
- The top 5 top charges of cases where a bail justification form was submitted but not approved are:

| Table 3<br>Screening Top Charge | Count | Percent |
|---|---|---|
| PL 160.15(3) – Robbery in the First Degree | 6 | 13.3% |
| PL 265.03(1)(b)—Criminal Possession of a Weapon in the Second Degree | 5 | 11.1% |
| PL 265.03(3)—Criminal Possession of a Weapon in the Second Degree | 4 | 8.9% |
| PL 140.20 – Burglary in the Third Degree | 4 | 8.9% |
| PL 120.05(12)—Assault in the Second Degree | 2 | 4.4% |

- The remaining 94 cases did not submit a bail justification form but we believe one should have been submitted. This is 19% of all cases that required a bail justification form according to our analysis.
- The top 5 charges of these cases are:

| Table 4<br>Screening Top Charge | Count | Percent |
|---|---|---|
| PL 120.00(1) – Assault in the Third Degree | 12 | 12.8% |
| PL 160.15(3) – Robbery in the First Degree | 9 | 9.6% |
| PL 160.15(4) – Robbery in the First Degree | 6 | 6.4% |
| PL 110/120.10(1) – Attempted Assault in the First Degree | 6 | 6.4% |
| PL 265.03(1)(b)—Criminal Possession of a Weapon in the Second Degree | 6 | 6.4% |

## III. Comparison in Bail and Remand Requests Between Q1 2021 & Q1 2022: a Deeper Dive

1. **How has the proportion of cases where bail or remand was requested at arraignment changed from Q1 2021 to Q1 2022 and how has the proportion of §B1 to non-§B1 cases changed?**

In Quarter 1 2021, 5,932 cases were arraigned:

- 1,207 cases had bail or remand requested (**20% of all arraignments**).
  - 423 §B1 cases had bail or remand requested—7% of all arraignments, 35% of all requests for bail or remand
  - 784 non-§B1 cases had bail or remand requested—13% of all arraignments or 65% of all requests for bail or remand

In Quarter 1 2022, 7,833 cases were arraigned:

- 839 cases had bail or remand requested (**11% of all arraignments).**
  - 351 §B1 cases had bail or remand requested—4% of all arraignments, 42% of all requests for bail or remand
  - 488 non-§B1 cases had bail or remand requested—6% of all arraignments or 58% of all request for bail or remand

Table 5: Changes in number of cases arraigned and bail or remand requests between Q1 2021 and Q1 2022

| | Q1 2021 | Q1 2022 | # Difference | % Difference |
|---|---|---|---|---|
| Cases arraigned | 5,932 | 7,833 | 1,901 | 32% |
| Cases with bail or remand was requested | 1,207 | 839 | 368 | -30% |
| % of cases where bail or remand was requested at arraignment | 20% | 11% | -9% point difference | |
| §B1 cases arraigned where bail or remand was requested | 423 | 351 | -72 | -17% |
| % of all bail or remand requests that were §B1 cases | 35% | 42% | +7% point difference | |
| Non-§B1 cases arraigned where bail or remand was requested | 784 | 488 | -296 | -28% |
| % of all bail or remand requests that were non-§B1 cases | 65% | 58% | -7% point difference | |

2. **Has the bail justification form changed if DANY asked for bail or remand on non-§B1 cases?**

- The overall proportion of non-§B1 versus §B1 cases arraigned remains largely unchanged between quarter 1 2021 and quarter 1 2022, where around 90% of all arraignments are non-§B1 cases.
- In quarter 1 2021, 65% of cases where bail or remand was requested were non-§ B1 cases, and that number was 58% in quarter 1 2022 (see above). This implies that the Day 1 memo and bail justification forms have made it less likely that and ADA will request bail on a non-§B1 case.
- Each of the §B1 categories account for some percent of all bail or remand requests each quarter:

Table 6: Percent of bail or remand requests by charge category

| | Q1 2021 | Q1 2022 | Change in Percent |
|---|---|---|---|
| Homicide cases | 5% | 7% | 2% |
| Class B violent felony cases | 3% | 4% | 1% |
| Sex crimes cases | 6% | 8% | 2% |
| DV Felony cases | 14% | 17% | 3% |
| Criminal Contempt cases | 10% | 10% | 0% |

- In both quarter 1 2021 and quarter 1 2022, there were no public corruption, rackets, or major economic crimes cases where bail or remand was requested.

**3. Has the new policy changed the court's response to our bail requests?**

The overall percentage of cases in which bail is set or remand has increased slightly from quarter 1 2021 to quarter 1 2022. Note bail set is defined as cases where a judge set bail (of more than $1), regardless of whether or not the defendant managed to pay.

- In quarter 1 2021, of those 1,207 cases where bail or remand was requested at arraignment, 792 cases had bail or remand set (66% of total bail or remand requests). In Quarter 1 2022, of the 839 cases where bail or remand was requested at arraignment, 586 cases had bail or remand set (70% of total bail or remand requests).
- In quarter 1 2021, of those 784 non-§ B1 cases that had bail or remand requested at arraignment, 503 had bail or remand set (64% of total non-§ B1 bail or remand requests). Of those 423 § B1 cases that had bail or remand requested, 289 had bail or remand set (68% of total § B1 bail or remand requests).
- In quarter 1 2022, of those 488 non-§ B1 cases that had bail or remand requested at arraignment, 346 had bail or remand set (71% of total non-§ B1 bail or remand requests). Of those 351 § B1 cases that had bail or remand requested, 240 had bail or remand set (68% of total § B1 bail or remand requests).

Table 7: Number and percent of cases where bail or remand was requested and set at arraignment

| | Q1 2021 | Q1 2022 | # Difference | % Difference |
|---|---|---|---|---|
| Cases where bail or remand was requested | 1,207 | 839 | -368 | -30% |
| Cases where bail was set or remand | 792 | 586 | -206 | -26% |
| % of cases where bail or remanded was requested and set | 66% | 70% | 4% point difference | |
| §B1 cases where bail or remand was requested | 423 | 351 | -72 | -17% |
| §B1 cases where bail was set or remand | 289 | 240 | -49 | -17% |
| % of §B1 cases where bail or remand was requested and set | 68% | 68% | No difference | |
| Non-§B1 cases where bail or remand was requested | 784 | 488 | -296 | -38% |
| Non-§B1 cases where bail was set or remand | 503 | 346 | -157 | -31% |
| % of non-§B1 cases where bail or remand was requested and set | 64% | 71% | +7% point difference | |

4. **Has the new policy caused the courts to set bail more often without a request?**

- In 2021, there was an average of 5 cases each month where bail or remand was not requested but was set at arraignment.
- In quarter 1 2022, the average number of cases each month where bail or remand was not requested but was set is 14 cases (21 in January, 6 in February and 15 in March). This is 2.8 times higher on average in 2022 than 2021 though obviously it remains a small number of cases.

## Request and Outcome Tables for 2021 and 2022 January

### 2021 Full Year (Total arraignments: 29,736)

* These request/outcome type categories are not mutually exclusive to each other. ADA may have requested more than 1 of these categories to one case, for example, a case can have both bail or remand requested the same time. Similarly, cases where dollar bail was set could have a remand outcome.
